

REGAL

PRODUCT SPECIFICATION

REGAL Zero Interconnect Cables

Zero technology provides transparency and neutrality in the sound by removing the impact of the insulation material. This improves tonal qualities as well as transient response and micro details. Once experienced, the level of performance is very addictive. It is about an exceptional experience of clarity, effortless and harmonic richness.

TECHNOLOGIES

Zero Loss Technology

DESIGN CONCEPTS

Hand Made in Sweden
6/7 Layer Cable Design
High Purity Conductors
Low Impedance Shield (RCA)
RCA-RCA Single Ended
XLR-XLR Balanced
DIN/RCA Phono 24pF/m
Highly Flexible

MOMENTUM V2 SERIES

- Gold over silver plated OFC connectors
- Patented Zero technology
- Single Crystal Copper, OCC
- FEP insulation
- Highly flexible polypropylene tubular design
- Length options: 0.75 - 2.0 m (custom is possible)

REFERENCE SERIES

- Gold over silver plated OFC connectors
- Patented Zero technology
- 99.99% Solid Core Silver
- PTFE insulation
- Highly flexible polypropylene tubular design
- Length options: 0.75 - 2.0 m (custom is possible)
